PERSONAL PROFILE

Frontend developer with 3+ years of commercial React and TypeScript experience, building accessible, user-focused web applications in a cross-functional product team. Comfortable working across engineering and product — from writing user stories and facilitating Agile ceremonies to shipping and testing features. Since leaving my previous role I have completed the BCS EXIN Foundation Certificate in Agile Scrum and continued personal development alongside creative pursuits. Committed to clean, maintainable code and accessible user experiences that work for everyone.

SKILLS

Technical TypeScript, JavaScript, React, CSS/Sass, REST APIs, Node.js, Git (GitHub/GitLab), Jest, Cypress

Tools & Platforms Figma, Jira, Confluence

Agile & Product Scrum, backlog refinement, user story writing, sprint planning and retrospectives

EXPERIENCE

Software Engineer, Scalable | April 2022 – August 2025

Developed and maintained front-end features for Acumen, a web application, using React and TypeScript in a small cross-functional product team. Wrote Jest unit tests and contributed to Cypress end-to-end tests regularly as part of feature delivery, contributing to improved code reliability. Worked with a focus on performance and usability, and am actively developing my accessibility knowledge to WCAG standards. Partnered with the Head of Engineering, CEO, UX designer, QA testers, and developers to refine requirements, prioritise backlog items, and write user stories. Facilitated Agile ceremonies and acted as a bridge between leadership and engineering, aligning product goals with technical feasibility.

Analyst Programmer, Europcar | 2005 – 2008

UI development, code review, and technical documentation in cross-functional teams of varying sizes.

CERTIFICATIONS

BCS EXIN Foundation Certificate in Agile Scrum V4.0 — December 2025

EDUCATION

Bath Spa University | Oct 2021 – Jan 2022

Web Development Bootcamp

Practical course covering React, HTML, CSS, JavaScript, Git and working with APIs.

Open University |

BSc (Hons) Open, 2:1 — 2006 (principally IT and Computing)

Diploma in Computing — 2003
